Larry S. brought a Pfaltz DXII model. He is currently working it over to reduce weight. An RCV 60 engine will power the plane when the restoration work is complete. It had an interesting cowl and scale features.

The **Pfalz D.XII** is a German fighter aircraft built by Pfalz Flugzeugwerke. Designed by Rudolph Gehringer as a successor to the Pfalz D.III, the D.XII entered service in significant numbers near the end of the First World War. It was the last Pfalz aircraft to see widespread service. Though the D.XII was an effective fighter aircraft, the highly successful Fokker D.VII overshadowed it. (From Wikipedia)
